Bryan Rice Live:

A whole new way of putting a concert together.

Danish pop singer/songwriter, Bryan Rice:

16 years, 6 albums, several hitsingles and lots of live experience later, Danish pop singer/songwriter Bryan Rice (No Promises, Homeless Heart, Breathing, Warriors etc.) is more ready than ever to present his new honest and very present lyrics, songs and performance to a broad audience. Having already made his way into markets such as Scandinavia, South Africa, Benelux, Asia, France, Spain etc, Bryan is now eager to explore all possibilities with his newest pop material - the 'We Can Be Heroes' single.

Many years on stages in and out of Denmark has taught me to focus on and adapt to the situation, the venue, the audience and the wishes more than anything else. All setups, from duo to full band, acoustic or track based, talks, intimate dinner formats, tight show or challenging theme nights, bring it on! - says Bryan, who gave himself the title "music entrepreneur".

Whether Bryan is on stage with a guitarist or a full orchestra, it's always with an energy and a will, that only the few master. He has a unique presence and a strong vocal that can soften even the hardest hearts.

Experiences, development and sailing on Vejle Fjord

At GoSail, we are passionate about developing people through sailing. The goal is to create positive results for the participants, regardless whether it's about systematically developing of high performance teams, or giving a group of people a great experience together. The possibilities for a completely unique and intense experience is possible, and anyone can join.

Development and team building

Get salty water in your hair with your colleagues, and strengthen the unit. Use the boats and the water as a tool in a development process, or maybe you just want to celebrate a great result or relax with each other.

Match race sailing

Basically, the exercise is that the participants hand/sails the boat themselves, and makes the boat sail optimally around the course. One very versatile and challenging task that requires collaboration and good communication.

Our boats are sailed by 3-5 people plus an instructor. The sailing is organized according to the number of participants and thus also the number of boats on the water.

Rib sailing

We sail a trip in the RIB, which has fixed seats for 12 people. We can take a trip and feel the wind on our cheeks, or we can sail a trip with a cultural narrative on Vejle Fjord. We are happy to bring coffee/drinks/wine snacks ect.

Experiences

Intense and unique experience on Vejle Fjord. Close to nature, close to the culture, speed through the water, salty water in the hair and water spray on the cheeks. It is an experience one remembers.

Price examples

ARENA

Mobile escapegame reaches new heights

The classic escape rooms, where smaller groups have an hour to escape from a room by solving puzzles and cracking codes. These experiences have increased in popularity in recent years. The limitation in these games has typically been activating larger groups while keeping the experience intact.

This mobile escapegame consists of 12 unique boxes. Each box contains challenging puzzles that are often found in a physical escape room as well as: hidden doors, surprising items, padlocks and much more.

The goal? Solve as many boxes as possible, within the set time. The competition is initiated by the Gamemaster and the participants must now, in teams of up to 5 people, solve all the puzzles till they reach the innermost part of their respective boxes.

Information on the box will help the teams through the game. When the last door in the box is opened, they will find a "coin" as proof that they made it. This must be displayed to the Gamemaster who takes notes as the teams complete the boxes. Duration 1-2 hours, depending on your program.

Arena Escapegame price example:

Duration:	1-2 timer
30 participants, 6 boxes:	Kr. 10.000,- excl. VAT and transport

But the day's not over yet, we still need to get everyone together to see all the films, and what better way than a glamorous award show, with speeches, prizes and maybe a little glass of bubbly to celebrate each other with. Riedel Glass Tasting

The good taste experience starts by the right glass

Glasses are science, and not without reason Austrian Riedel has researched the influence on the sense of smell and on the taste buds in relation to the design of the glasses. The right glass for the right wine can actually mean that a wine smells and tastes of 50 % more.

It sounds like an attempt of imagination but is almost magic. Experience Riedel Glass Tasting and be convinced. We serve three different wines in three different glasses.

Riedel is known for having a wine glass for any wine and has for many years told the story of how important the glass is for the perfect wine experience – the good taste experience starts with the right glass. Therefore, you can get Riedel glasses in many different designs that are optimized for the individual wine and type of grape.

At Munkebjerg Hotel we have trained our own staff to be able to tell about fantastic world of taste and history of Riedel glasses – look forward to this experience.

Here at Munkebjerg Hotel we have replaced all wine glasses and now serve our wines only in glasses from Riedel.
